Tanay on route to becoming a world brand in its 20th year...

About TANAY...

My first experience in the hotel business began in 1974 while I was studying law.

Whilst a university student I started work at the Hilton International Istanbul, and despite graduating from faculty of law, during my 10 years at the Hilton, the hotel business absorbed me into its own world never to let go. In 1982 I produced a PVC match box prototype for the Hilton Hotel, perhaps the first PVC match box in the world, and with a confirmed order for 300,000 units my experience in production ignited the first sparks of the Tanay of today...

Experience and training acquired during many years with the Hilton, time spent in hotels during frequent trips, and participation in all stages of manufacture, have all provided a strong foundation of invaluable knowledge and know-how ensuring the smooth operation of business today, enabling empathizing and sharing the perspective of a competent hotel manager, experienced guest and an efficient cost supervisor, with the understanding and ability to meet their expectations.

In Turkey, Tanay is acclaimed by its customers to be brand leader in its field. Successfully designed collections, vertically integrated facilities and high

quality performance has created the reliability and respectability by which the company is known. Tanay is honoured to share their 20th year celebrations with you during 2011.

The brand "Sadi Tanay's Collection, Istanbul" was created in 2008 and successfully developed with determination, passion and belief, increasing and strengthening market coverage in more than 40 countries on its way to becoming a world brand.

Participation in several International exhibitions such as those held in Paris, London, Dusseldorf, Cairo and Dubai, has led to awareness by the market of European quality standards used in our products, integrated production and service, flexibility in quantity and delivery times, fast and quality deliveries and has been the main determining factor in being preferred and maintaining on going relationships.

Our understanding of manufacture and service quality is built upon the basic principles of:

- Consultancy,
- Cost saving solutions,
- Individual design ability,
- Flexibility in the determination of required quantity and delivery times,
- On time and complete deliveries,
- Reliability and consistency.

Tanay, supplying you with personalized and carefully prepared products,

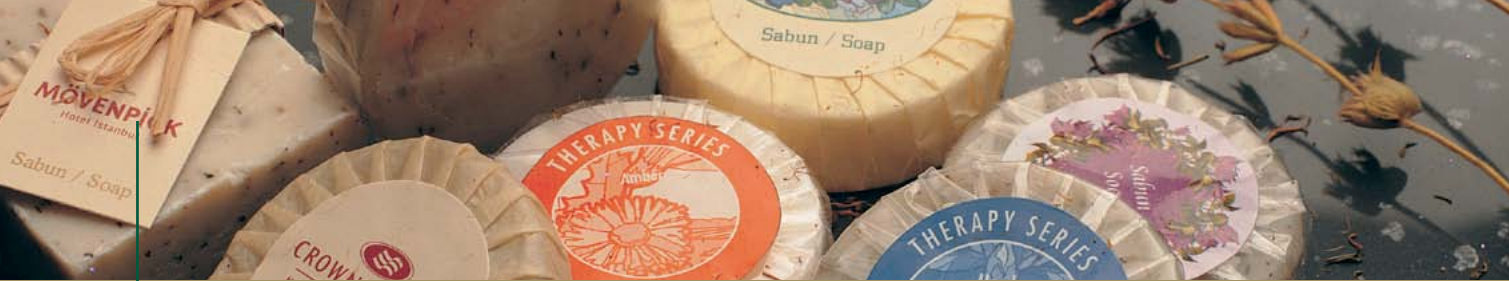

Will work with you to design small touches of individuality that will create customer satisfaction by leaving positive impressions on your guests.

Our objective is to provide you with the best quality and the best services exceeding your best expectations in every way possible.

Due to this perception, Tanay was awarded ISO 9001-2000, ISO 10002 Customer Satisfaction certificates in 2008.

With the sincere desire of seeing you within our distinguished Tanay family...

Yours Sincerely,
Sadi Tanay
